

## AZ-1 Parts Equivalent List.

Note: This list is oriented towards UK parts availability but will likely be of use in other countries.

### **Front/rear suspension lower link inc chassis and ARB bushes and ball joint:**

Suzuki Alto: Delphi TC631

### **ARB to chassis D bushes (Poly)**

Suzuki Ignis: Superpro SPF2652-24K (these are 24mm instead of 25mm but fit)

### **Brake discs:**

No known equivalent outside Japan. Many vendors on Yahoo Auctions or Amayama. One example is Bosch BD9627X, seems Japan only.

### **Steering rack rubber boots:**

BluePrint ADK881501, ADK881503 (Suzuki Alto).

### **Top strut mounts front/rear:**

Suzuki Wagon-R. Amayama sell the original Mazda "donut" which is the part which wears and is low cost original quality item.

### **Bush in LH end of steering rack:**

FEBEST SZAB-043

### **Brake pads front:**

Cappucino: TRW GDB3108

### **Brake Pads Rear:**

Hyundai Coupe 1993: Mintex MDB2352

### **Rear caliper shim kit:**

Mintex MBA1710

### **Track rod ends:**

First Line FTR4353

### **Rear caliper seal kit including pistons:**

Hyundai Sonata 1993. 38mm dia pistons. Tokico/Mando calipers.

### **Cam belt:**

Gates 5642XS

### **Clutch kit:**

Exedy SZK2088. Note the 3 parts also have x-refs (eg Wagon-R release brg) but cheapest way is to buy the kit.

**Front/Rear wheel bearings:** Either order standard 62 x 35 x 14 mm bearings and remove seal on one side or a Suzuki Alto 1994 kit which will also include the inner hub seal.

**A/C Compressor:**

Suzuki Wagon-R SS06LT8

**Fuel Filter:**

Suzuki Alto 1994.

**Headlamp adjust screws/springs kit:**

Suzuki Gypsy ( A seller from India has these listed on Ebay UK)

**Starter solenoid:**

Mitsubishi HC 133288.

**Hub Nut:**

Suzuki Alto

**A/C Receiver/Drier:**

Delphi TSP0175135 Honda CRX 1992

**A/C Evaporator:**

Iveco Daily 1999-2006 (This van was made in large numbers in Spain, plenty of these in Europe).

**A/C Condenser:**

Appears to be specific to car.

**Radio Harness adaptor:**

Car connector same as MX5 (Miata) MK 1

**Engine:****Block, pistons, water pump, oil pump, head, valvegear, distributor, turbo:**

Suzuki Cappucino.

The following parts are *NOT THE SAME* as the Cappucino:

Sump, Distributor cap (Capo has side entry), Ignition leads, Most of the water/oil/vac plumbing, Inlet manifold, Throttle body (although looks very similar), Flywheel and clutch (Capo has a big heavyweight flywheel with a small clutch recessed into it), Oil cooler, Turbo oil drain hose.

**Gearbox:**

Appears to be based on Wagon-R. Casing same part number. External linkage is different, ratios could be different.

**Steering rack and column:**

Early non-power assist Suzuki Alto although the rack length might be different.

**A/C belt:** Mazda AZ2815908 Gates 6273 765MM

**Alternator belt:** Mazda AZ2818381A Gates 6283 650MM
